

Your link to Australia

Our cables across the Pacific region

The future is exciting.
Ready?

Hawaiki Transpacific Submarine Cable System

A carrier-neutral cable system providing a high capacity link between Australia, New Zealand and the United States.

Investment led by Vodafone

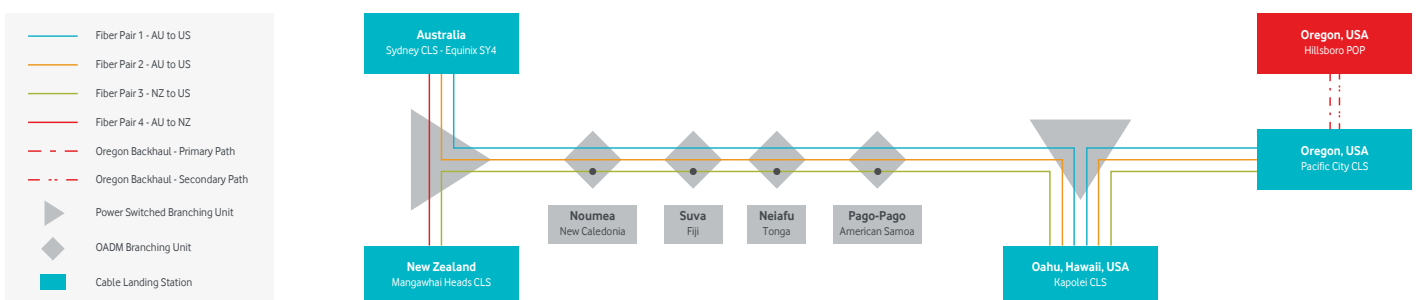

The international bandwidth market in Australia and New Zealand is projected to grow by 11,000% in the next 10 years. Global connectivity and access to faster and more resilient internet connectivity is vital to the region. Hawaiki is a 15,000km high capacity

cable connecting Australia and New Zealand to the mainland US, as well as American Samoa and Hawaii, including potential future connections to New Caledonia, Fiji and Tonga. In order to meet the growing demand for bandwidth in the Pacific region,

Hawaiki cable offers high-speed, low-latency connectivity with the latest technology. The privately-owned, carrier-neutral cable system is now ready for service. Vodafone is one of the anchor customers on the system, able to deliver tailored capacity solutions.

Connectivity and landing points

Hawaiki landing points include Sydney (Australia), Mangawhai Heads (New Zealand), Tafuna (American Samoa), Kapolei (Hawaii, USA), Pacific City (Oregon, USA) and stubbed branching units to allow future connections to New Caledonia, Fiji and Tonga.
