

LPWAN adoption made easy

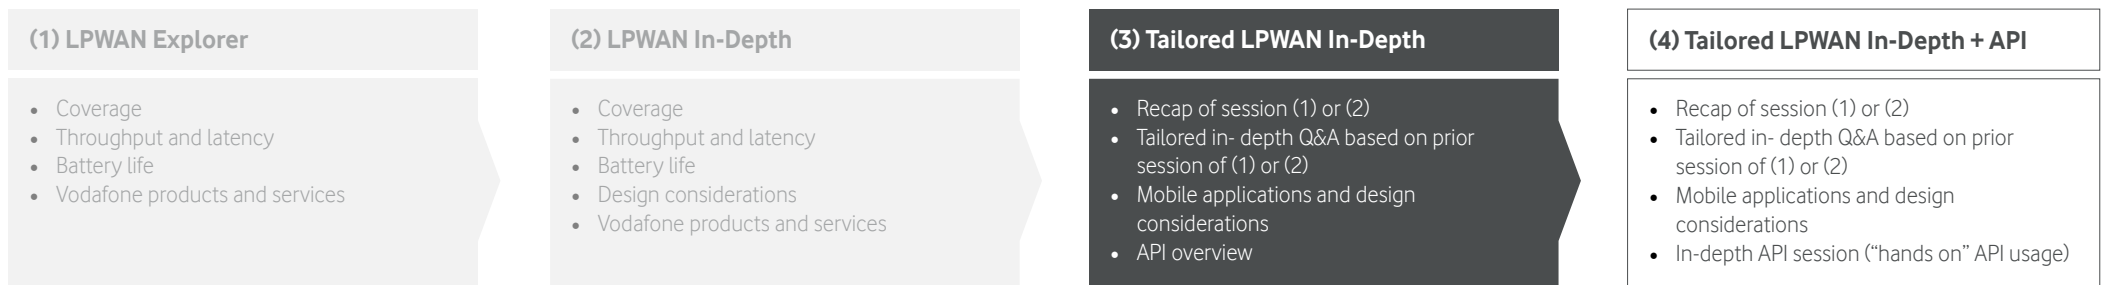

Vodafone IoT LPWAN Consultancy Service – Tailored LPWAN In-Depth

Narrowband IoT (NB-IoT) and Long Term Evolution for Machine Type Communications (LTE-M) are new technology standards, designed to broaden the future of IoT connectivity. These technologies have been ratified by the 3GPP telecoms standards body as 5G, and have been developed to enable more efficient communication and longer battery life for mass-distributed IoT.

With Vodafone's Low Power Wide Area Network's **(LPWAN) Tailored In-Depth Consultancy Service**, we offer professional consultancy and support – the Vodafone IoT expert consultant will aid you explore the possibilities of LPWAN for your business with a tailored in-depth session of Narrowband-IoT and LTE-M, plus an API overview.

Our IoT LPWAN Tailored In-Depth consultancy service can be combined with our other advanced IoT LPWAN consultancy service available. For the optimal outcome of the proposed workshops, it is ideal to follow the order indicated below:

Vodafone IoT Professional Services: LPWAN Consultancy Services

Please contact any of our Vodafone representatives to request further information on our other LPWAN Consultancy Services, as well as other Vodafone IoT Professional Services.

Benefit from our IoT LPWAN Consultancy Service – Tailored In-Depth for LPWAN

Our expert consultants offer independent expertise to support your organisation, in a workshop setting. The layout for this session will be built around the following items:

- Tailored in-depth session covering the Q&A that will stem from the previous sessions based on specific examples, use cases and demos, specifically in regards to NB-IoT and LTE-M and how they compare to other technologies, along with expected behavior in a live network. This will include:

- Coverage
- Throughput and latency
- Battery life
- Vodafone products and services
- Mobile Applications & Design Considerations

- A messaging API overview
- Summary containing a report of the recommendations from the expert consultants

What do we offer?

Vodafone is recognised by industry analysts as a world leader in IoT technology and solutions. We have developed many of the IoT technologies and standards ourselves, ensuring we are well-placed to provide expert advice.

Our expert consultants offer independent expertise to support your organisation in the setting of a face-to-face workshop, delivering a tailored in-depth session of Narrowband IoT and LTE-Machine Type Communications catered to a smaller, more capable and knowledgeable audience (all types of developers included) within your organisation.

Our LPWAN consultancy service will help you:

- Shorten your learning curve on NB-IoT and LTE-M with this workshop
- Develop a roadmap for NB-IoT and LTE-M adoption in your business
- See the business benefits and value that NB-IoT and LTE-M can offer to your organisation

Experience at your service

Our in-house consultants have a wealth of experience delivering innovative IoT solutions to address clients' business challenges across a range of industries.

We have access to trusted partners who have decades of experience of IoT and related technologies spanning all market sectors.

Why Vodafone?

Vodafone has more than 20 years' experience in the IoT arena with more than 1,400 dedicated IoT experts. We bring unrivalled capabilities together as one of the world's largest mobile networks with outstanding customer experience and a long track record of success with more than 62 million IoT connections deployed.
