1 Open

2 Insert SIM and close

3 Plug in

4 Connect

Once the USB Stick has installed drivers for your computer and found a good data signal you will be connected to the internet.

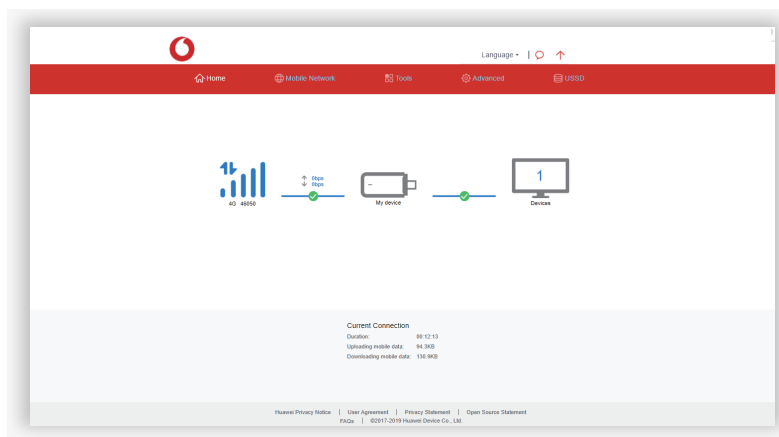

You may also be asked to enter the PIN number for the SIM card you installed in your USB Stick.

Using the web interface at vodafonemobile.vmb

Just enter vodafonemobile.vmb in your browser.

Then you can see how much data you have used, manage roaming settings, get help and support and even send and receive SMS messages from your computer.

Note for UK only: if you are a Contract customer you can send and receive SMS messages. Pay As You Go customers will only receive network notifications

The LED light

- A GPRS network is available
- Connected via GPRS
- A 3G network is available
- Connected via 3G
- Connected via 3G Broadband
- In a 4G LTE area: check a connection window to see if you are connected.
