## Vodafone Mobile Wi-Fi R205

Vodafone Mobile Wi-Fi R205 is the next generation of Vodafone branded mobile Wi-Fi device. It creates a personal portable Wi-Fi zone which allows several Wi-Fi enabled devices (for example PCs, Apple® iPhone, iPad or iPod touch, or mobile gaming devices such as Nintendo® DSi, Android devices including the Samsung® Galaxy Tab) to share a secure mobile internet connection via Wi-Fi. The device is battery, mains or USB powered, and this flexibility allows the device to be positioned for best mobile coverage. Building on the recent success of Mobile Wi-Fi in Europe with the R201 device, the R205 will uplift the device speed to 21.6 HSPA+ and a 4.5 hour battery and delivers differentiation through customer experience.

The customer experience, developed in conjunction with business marketing and Group Technology, is market leading through the Vodafone Mobile Wi-Fi web UI which delivers an unmatched web based management experience, integrating full prepay management for appropriate markets and the Mobile Wi-Fi monitor app which allows Android and iOS users to monitor their Mobile Wi-Fi connection via the convenience of their smartphone or tablet.
