1 Your phone

1.1 Keys and connectors

- Headset connector
- Front camera
- Touch screen
- Back key
- Recents key
- Home key
- Micro-USB connector
**Recents key**
- Touch: this shows your recently-used apps. Touch an app to open it, or swipe it left or right to remove it from the list.

**Home key**
- While on any app or screen, touch the Home key to return to the main Home screen.
- Long press this key to access Google Now & Voice Search.

**Back key**
- Touch to go back to the previous screen, or to close a dialogue box, options menu, the Notification panel, etc.

**Power key**
- Press: activate the lock screen/wake up the screen.
- Long press: show the pop-up menu to select from **Shut down, Restart, Flight mode**.
- Press and hold: power on.
- Long press the Power key and the **Volume down** key to capture a screenshot.

**Volume keys**
- During a call, they adjust the earpiece or headset volume.
- In Music/Video/Streaming mode, they adjust the media volume.
- In general mode, they adjust the ringtone volume.
- Mute the ringtone of an incoming call.

Camera

| Power key | Volume up | Volume down |
1.2 Getting started
1.2.1 Setup

Removing or installing the back cover

Inserting or removing the SIM card
You must insert your SIM card to make phone calls.

Power off your phone and remove battery before inserting or removing the SIM card.

Place the SIM card with the chip facing downwards and slide it into its housing. Make sure that it is correctly inserted. To remove the SIM card, press and slide it out.

This is a dual SIM capable device which shall support only DS-DS (Dual SIM, Dual Standby) but not DS-DA (Dual SIM, Dual Active). If one SIM is active (e.g. in a call) the other SIM may not make calls/text/transmit data. Both SIM slots are open to all networks.

Your phone only supports micro-SIM card. Do not attempt to insert other SIM types like mini or nano cards, as you may damage your phone.

Installing or removing the battery
Power off your phone before removing the battery.

• Insert the battery with connectors facing the phone connectors, click it into place, and then close the cover.
• Unclip the cover, then remove the battery.

Inserting or removing the microSD card
Power off your phone and remove battery before inserting or removing the microSD card.

Place the microSD card with chip facing towards you and slide it into its housing. Make sure that it is correctly inserted. To remove the microSD card, press and slide it out.

Charging the battery

(optional)
To charge the battery, connect the charger to your phone and mains socket. You can also charge your phone via a USB cable.

To reduce your phone’s power consumption, switch off Wi-Fi, GPS, Bluetooth or apps running in the background when not needed. In Settings you can also lower the brightness of the screen, and shorten the length of time before the screen goes to sleep.

1.2.2 Power on your phone
Hold down the Power key until the phone powers on. It will take a few seconds before the screen lights up. Unlock your phone (Swipe, PIN, password or pattern) if necessary and confirm. The Home screen will display.

If you do not know your PIN code or if you have forgotten it, contact your network operator. Do not leave your PIN code with your phone. Store this information in a safe place when not in use.

Set up your phone for the first time
The first time you power on the phone you will be asked to set the following options: language, Google account, date & time, etc.

1. Select the phone’s language, then touch.
2. Select Wi-Fi network, then touch NEXT.
3. Input your Name, then touch NEXT.
4. Protect your phone, set screen lock now or touch SKIP to move to next setup.
5. Select Google services, once finished, touch NEXT.
6. Select a Home screen, then touch NEXT.
7. Select Help tips, then touch NEXT.

Together with the other options (Date & time, App permissions, and etc) all configured, the setup of your device is completed.

If you power on your phone with no SIM card inserted, you will still be able to connect to a Wi-Fi network to sign into your Google account and to use some features.

1.2.3 Power off your phone
Hold down the Power key from the Home screen until the Phone options appear, then select Shut down.

1.3 Home screen
Your phone has two kinds of Home screen that you can use: the standard Home and the Simple Home screen.

You can set this when you first turn the phone on, or by touching Settings > Home.

In the simplified Home screen, all the features you need, are presented in an intuitive and attractive design.

Touching the Home key always takes you to your main Home screen, and you can personalise all your Home screens by adding your favourite apps, shortcuts and widgets to them.
In the standard Home screen the bottom set of icons is always visible, whichever of your Home pages you are on. This also includes the Application tab, which will show all your available apps.

The Home screen extends on either side of the screen to allow more space for adding apps, shortcuts, etc. Slide the Home screen horizontally left and right to get a complete view of the Home screen. The white spot in the lower part of the screen indicates which screen you are viewing.

In the standard Home screen, you can slide right to access your favourite app (which is set to Smart tips). You can change this to open a different app by touching Settings > Display > Favourite Home screen app.

### 1.3.1 Using the touchscreen

**Touch**

To access an app, touch it with your finger.

**Long press**

Long press the Home screen to access the available options for setting the wallpaper.

**Drag**

Long press an item to be able to drag it to another location.

**Slide/Swipe**

Slide the screen to scroll up and down lists, screens of apps, images, web pages, etc.

**Flick**

Similar to swiping, but flicking makes it move quicker.

**Pinch/Spread**

Place your fingers of one hand on the screen surface and draw them apart or together to scale an element on the screen.

**Rotate**

Automatically change the screen orientation from portrait to landscape by turning the phone sideways.

### 1.3.2 Status bar

From status bar, you can view both phone status (on the right side) and notification information (on the left side).
### Status icons

Notification panel
Touch and drag down the Status bar to open the Quick settings panel and drag down again to open the Quick settings panel. Touch and drag up to close it. From the Notification panel, you can open items and other reminders indicated by notification icons or view wireless service information.

Touch to access the Quick settings bar

Touch and drag downwards twice to access the Quick settings bar

Touch a notification and slide it sideways to delete it.
Touch the icon to clear all event–based notifications (other ongoing notifications will remain).
Touch and then the Settings icon to access Settings.

The customised picture will show if you set up your profile in the Contacts application. (1)

(1) Please refer to "3.3.1 View your contacts"

Quick settings bar
• Touch icons to enable/disable functions or to change modes
• Touch the down arrow to view settings

1.3.3 Search bar
The phone provides a Search function which can be used to find the information you want on your phone, in your applications or on the web.

a Search by text
• Touch the Search bar from the Home screen.
• Enter the text/phrase you want to search for.
• Touch on the keyboard if you want to search on the web.

b Search by voice
• Touch from the Search bar to display a dialog screen.
• Speak the word/phrase you want to search for. A list of search results will display for you to select from.
1.3.4 Lock/Unlock your screen

To protect your phone and privacy, you can lock your phone screen with a variety of patterns, PIN or password, etc. through Settings > Security > Screen lock.

To create a screen unlock pattern (Follow onscreen instructions)

- Touch Settings > Security > Screen lock > Pattern.
- Draw your own pattern.

To create a screen unlock PIN/Password

- Touch Settings > Security > Screen lock > PIN or Password.
- Set your PIN or password.

To lock phone screen

Press the Power key once to lock the screen.

To unlock phone screen

Press the Power key once to light up the screen, draw the unlock pattern you have created or enter PIN or password to unlock the screen.

If you have chosen Swipe as the screen lock, slide upward to unlock the screen.

1.3.5 Personalise your Home screen

Add an app or widget

Touch the Application tab , then long press the app to activate the Move mode, and drag the item to any Home screen.

Reposition an app or widget

Long press the item to be repositioned to activate the Move mode, drag the item to the desired position and then release. You can move items both on the Home screen and the Favourites tray. Hold the icon on the left or right edge of the screen to drag the item to another Home screen.
Remove
Long press the item to be removed to activate the Move mode, drag the item up to the top of Remove icon, and release after the item turns grey.

Create folders
To make it easier to organise apps and shortcuts on the Home screen and the Favourite tray, you can add them to a folder by stacking one item on top of another. To rename a folder, open it and touch the folder’s title bar to input the new name.

Wallpaper customisation
Long press an empty area on the Home screen or go to Settings > Display > Wallpaper to customise your wallpaper.

1.3.6 Volume adjustment

Using volume key
Press Volume key to adjust the volume. To activate the vibrate mode, press the Volume down key until the phone vibrates. Press the Volume down key once more to activate the silent mode.

Using Settings menu
Drag down twice from the notification panel and touch the settings icon ⬇️ to open Settings, then touch Sound & notification. You can set the volume of calls, notification, system and etc. to your preference.

2 Text input

2.1 Using the onscreen keyboard

Onscreen keyboard settings
Touch the Application tab from the Home screen, select Settings > Language & input.

Adjust the onscreen keyboard orientation
Turn the phone sideways or upright to adjust the Onscreen Keyboard orientation. You can also adjust it by changing the settings (go to Settings > Display > When device is rotated > Rotate the contents of the screen).

2.1.1 Android keyboard

Touch to enter text or numbers
Long press, then select to enter symbols/emoticons
Touch to switch between "abc/Abc" mode; Long press to switch between "abc/ABC" mode
Touch to switch between the symbol and numeric keyboard
2.2 Text editing

You can edit the text you have entered.

• Long press or double touch the text you want to edit.
• Drag the tabs to change the highlighted selection.
• The following options will show: CUT, COPY, PASTE, SHARE and SELECT ALL.

You can also insert new text

• Touch where you want to type, or long press a blank space, the cursor will blink and the tab will show. Drag the tab to move the cursor.
• If you have selected any text, touch the tab to show PASTE which allows you to paste any text you have previously copied.

3 Phone call, Call log & People

3.1 Phone call

3.1.1 Placing a call

To make a call when the phone is active, go to the Home screen and touch the Phone icon in the Favourites tray.

If the phone is locked, press the Power button and then swipe the phone icon to the right.

Long press to access voicemail

Touch to show the dial pad

Call log
Contacts
Enter the number you want from the dial pad directly or select a contact from **CALLS** or **CONTACTS** by touching tabs, then touch to place the call.

The number you entered can be saved to **Contacts** by touching and select **Add to contacts**.

If you make a mistake, you can delete the incorrect digits by touching .

To hang up a call, touch .

**International call**

To dial an international call, long press 0 to enter "+", then enter the international country prefix followed by the full phone number and finally touch .

**Emergency call**

If your phone has network coverage, dial the emergency number and touch to make an emergency call. This works even without a SIM card and without typing the PIN code.

---

**3.1.2 Answering or rejecting a call**

When you receive a call, a call window will be presented on top of the screen. Touch ✗ to dismiss a call or to answer a call. Touch the call window to open the Phone call screen.

On the Phone call screen, touch •
- Slide the icon right to answer the call;
- Slide the icon left to reject the call;
- Slide the icon up to reject the call by sending a preset message.

To mute incoming calls, press the **Volume up/down** key.

When a second SIM is activated in the mobile phone and mobile user is already engaged in a call, then the inbound call to the second SIM card will be automatically diverted to voice mail.
3.1.3 Calling your voicemail

Your voicemail is provided by your network to avoid missing calls. It works like an answering machine that you can access at any time.

To listen to your voicemail, long press 1 on Phone tab.

To set your voicemail number, touch * key and touch Settings > Calls > Voicemail.

If you receive a voicemail, a voicemail icon appears on the Status bar. Open the Notification panel, touch New voicemail.

3.1.4 During a call

To adjust the volume during a call, press the Volume up/down key.

Touch to hold the current call. Touch this icon again to retrieve the call.

Touch to display dial pad.

Touch to end the current call.

Touch to mute the current call. Touch this icon again to unmute the call.

Touch to activate the speaker during the current call. Touch this icon again to deactivate the speaker.

Touch to place call to another contact.

To avoid accidentally pressing the touchscreen during a call, screen will be locked automatically when you put your phone close to your ear; and it will be unlocked when the phone is taken away from your ear.

3.1.5 Managing multiple calls

With this phone you can handle multiple calls at the same time.

Conference calls

You can set up a conference call.

• Place a call to the first participant of the conference call.
• Touch and select Add call.
• Enter the phone number of the person you want to add to conference and touch . You can also add participants from CALLS or CONTACTS.
• Press menu icon to start a conference call.
• During a conference call, touch to drop a participant or to talk privately to one of the participants. Touch to drop the participant from the conference, touch to talk privately to the participant and hold on other participants.
• Touch to end the conference call and disconnect all callers.

(1) Depending on your network operator.
3.1.6 Call settings
From phone screen, touch † key and select Settings the following options are available:

General call settings:

- **Voicemail**
  - **Service**
    Open a dialog box where you can select your carrier's voicemail service or another service.
  - **Setup**
    If you are using your carrier's voicemail service, this opens a dialog box where you can enter the phone number to use for listening to and managing your voicemail.

- **Sound**
  - Touch to select the notification sound.

- **Vibrate**
  - Mark the check box to enable vibration when the call is connected.

- **Fixed Dialling Numbers**
  Fixed Dialling Number (FDN) is a service mode of SIM, where outgoing calls are restricted to a set of phone numbers. These numbers are added to the FDN list. The most common practical application of FDN is for parents to restrict the phone numbers which their children can dial.
  For security reasons, you’ll be prompted to enable FDN by entering SIM PIN2 which is usually acquired from your service provider or SIM maker.

- **Noise Reduction**
  Mark the checkbox to suppress your background noise during calls.

- **Call forwarding**
  Touch to configure how your calls are always forwarded or when you are busy, unanswered or unreachable.

- **Call barring**
  You can activate or deactivate the call barring for outgoing and incoming calls. The various options are:
  - **All outgoing calls**
    All outgoing calls are barred.
  - **International outgoing calls**
    Outgoing international calls are barred.
  - **International except home**
    Outgoing international calls except those to your country of subscription are barred.
  - **All incoming calls**
    All incoming calls are barred.
  - **Incoming calls while roaming**
    Incoming calls are barred when you are abroad.
  - **Cancel all**
    Deactivate all call barring.
  - **Change barring password**
    Change the original barring password for activating call barring.

- **Additional settings**
  - **Caller ID**
    Opens a dialog box where you can set whether your phone number is displayed when making calls.
  - **Call waiting**
    Mark the check box to notify you of a new incoming call.

Sounds and vibration
Configure your sounds and vibrations system settings

Quick responses
Edit quick responses for incoming calls.

Accessibility
Touch to configure TTY mode settings
3.2 Recents
You can view your call history by touching from the Phone screen to view call history.

Touch a contact or number to view information or further operations.

You can view detailed information of a call, launch a new call or send messages to a contact or number, or add numbers to Contacts (only available for unsaved phone numbers), etc.

Touch the photo to open the Quick Contact panel.

To clear the entire call memory, touch key from the phone screen and touch Clear call history.

3.3 Contacts
You can view and create contacts on your phone and synchronise these with your Gmail contacts or other apps on the web or on your phone.

3.3.1 View your contacts
To access the Contacts app, touch the Application tab on the Home screen, then select Contacts.

Touch to view your favourite contacts
Touch to set up your profile and your picture will show
Touch icon to open the Quick Contact panel and view the contact’s detailed information
Contact list
Touch to add a new contact

After setting up your profile, your picture will show and the icon in quick settings screen will vary together.
3.3.2 Adding a contact

Touch the Application tab on the Home screen, select **Contacts**, then touch the icon in the contact list to create a new contact.

![Contact creation screen](image)

Touch to save

Touch to add a new label

Touch to take a photo or select a picture for the contact

When you're finished, touch ✓ to save.

To exit without saving, you can touch ← and then **Discard changes**.

**Add to/remove from Favourites**

To add a contact to favourites, you can touch a contact to view details then touch ★ to add the contact to favourites.

To remove a contact from favourites, touch ★ on contact details screen.

Only phone and account contacts can be added to favourites.

3.3.3 Editing your contacts

To edit contact information, touch ↗ key in the contact details screen. When finished, touch ✓.

**Change a contact’s default phone number**

The default phone number (the number which has priority when making a call or sending a message) will always be displayed under the contact name.

To change the default phone number, long press the number you want to set as the default number from the contact’s details screen, then select **Set default**. A 📞 appears after the number.

This choice is only available when the contact has more than one number.

**Delete a contact**

To delete a contact, touch ⏯️ and touch **Delete** from the contact (details) screen.

💡 The contact you have deleted will also be removed from other applications on the phone or web the next time you synchronise your phone.
3.3.4 Communicating with your contacts

From contact details screen you can communicate with your contacts by making a call or sending a message.

To launch a call, touch the phone number. If a second SIM is inserted and activated, then mobile user has the choice of which SIM card (SIM 1 or SIM 2) to launch the call.

To send a message, touch the icon on the right side of the number. If a second SIM is inserted and activated, then mobile user has the choice of which SIM card (SIM 1 or SIM 2) to send text message.

Use Quick Contact for Android

Touch a contact’s picture to open Quick Contact for Android, then you can touch the number or the icon for the way you want to connect.

3.3.5 Importing, exporting and sharing contacts

From the Contacts screen, touch the key to open the options menu, touch Import/export, then choose to import/export contacts from/to your SIM card, Phone, microSD card, Phone storage, Accounts, etc.

To import/export a single contact from/to your SIM card, choose an account and target SIM card, select the contact you want to import/export, and touch DONE to confirm.

To import/export all contacts from/to your SIM card, choose an account and target SIM card, touch Select all and touch DONE to confirm.

You can share a single contact or contacts with others via Bluetooth, Gmail, etc.

To do this, touch a contact you want to share, touch the key and Share from the contact details screen, then select the app to perform this action.

3.3.6 Displaying contacts

You can configure which group of contacts you want to display in the People list. Touch the key and then Contacts to display from the contacts list screen, then you can choose which contacts to display.

Touch the key and then Settings. You can Sort by First name or Last name, as well as Name format as First name first or Last name first.
### 3.3.7 Joining/Discarding contacts

To avoid duplicating information you can easily add a new contact's details to an existing contact.

Touch the contact which you want to add information to, touch the "ï»¿" key, then touch the "ï»¿" key in edit screen and touch **Merge**.

Then you'll be asked to choose the contact whose information you want to join with the first contact. The information from the second contact is added to the first one, and the second contact will no longer be displayed in the contacts list.

To separate contact information, touch the contact whose information you want to separate, touch the "ï»¿" key, then touch the "ï»¿" key in the edit screen. Then touch **Separate** and touch **OK** to confirm.

### 3.3.8 Synchronising contacts in multiple accounts

Contacts, data or other information can be synchronised from multiple accounts, depending on the apps installed on your phone.

To add an account, touch "ï»¿" on the Quick settings bar to get to **Settings**, then touch **Accounts > Add account**.

You'll be asked to select the kind of account you are adding, like Google, Exchange, etc.

As with other account setups, you need to enter detailed information, like username, password, etc.

You can remove an account and all associated information from the phone. Open the **Settings** screen, touch the account you want to delete, touch the "ï»¿" key and then select **Remove account**, and confirm.

**Sync**

You can synchronise an account on **Accounts** screen, touch an account in the list, then touch the "ï»¿" key and select **Sync now**.

---

### 4 Messaging & Email

#### 4.1 Messaging

Your phone can create, edit and receive chat, SMS and MMS messages.

Go to the Home page and touch the Messaging ✉ icon in the Favourites tray.

#### 4.1.1 Create a new message

On the message list screen, touch the new message icon + to write new text/multimedia messages.
Sending a text message
Enter the mobile phone number of the recipient on the recipients bar or touch + to add recipients, then touch the content bar to enter the text of the message. When you’ve finished, touch ▶ to send the text message.

An SMS of more than 160 characters will be charged as several SMS. Specific letters (like accents, for example) will also increase the size of the SMS, so this may cause multiple SMS to be sent to your recipient.

Sending a multimedia message
MMS enables you to send video clips, images, photos, animations, slides and audio to other compatible phones and e-mail addresses.

An SMS will be converted to MMS automatically when media files (image, video, audio, etc.) are attached or subject or email addresses are added.

To send a multimedia message, enter the recipient’s phone number in the recipients bar, touch content bar to enter the text of the message. Touch ▶ to open attach options, select picture, video, audio or other subjects that you want to add as attachments.

When finished, touch ▶ to send the multimedia message.

Attach options:
• Photo
  View your Gallery or File Manager to select a picture as attachment.

• Follow Me
  Touch to share your current location.

• Contact
  View your Contacts to select one or more contact(s) to attach.

• Video
  View your Gallery or File Manager to select a video as attachment.

• Audio
  Select Start recording to share instant audio or select sounds from phone.

4.1.2 Manage messages
When a new message comes, an icon will appear on status bar as notification. Drag down the status bar to open the Notification panel, touch the new message to open it. You can also open Messaging and touch the new message to open it.

Messages are displayed as a conversation.

To reply to a message, touch the current message to enter the message-composing screen, enter the text, then touch Send.

If you long press a message in the message details screen, the following options will be available:

• Copy message text
  This option is only available for SMS. Touch to copy current message content and past it to content bar of the new message you are going to compose.

• Forward
  Touch to forward the message to another recipient.

• Delete message
  Delete the current message.
4.1.3 Adjust message settings

In the message list screen, touch the : key and select Settings.

Look & Feel

• Font size
  Touch to change the font size.

• Background
  Touch to customise the background.

• Sort contacts by...
  Touch to sort contacts by First name or Surname.

• Display contact names by...
  Touch to display contact names by First name first or Surname first.

• Show call logs in conversation
  Mark the checkbox to enable/disable the function. Once enabled, photo logs, messages and media shared during a call will be highlighted.

Chat

• Service options
  Touch and mark the checkbox to enable/disable Call & Messaging service.

• Show last active info
  Mark the checkbox to show/hide your last active info.

• Read notifications (chat only)
  Mark the checkbox to send a notification when a chat message was read.

• Chat profile name
  Touch to set up the name on your profile.

• Automatic download
  Touch to give permission to automatically download media files depending on the connection status.

SMS & MMS

• Allow conversion of long SMS to MMS
  Mark the checkbox to enable/disable this function.

• SMS delivery reports
  Mark the checkbox to allow the request of SMS delivery reports.

• MMS delivery reports
  Mark the checkbox to allow the request of MMS delivery reports.

• MMS while roaming
  Mark the checkbox to automatically retrieve incoming MMS while roaming.

• MMS auto-retrieve
  Mark the checkbox to automatically retrieve incoming MMS.

• Advanced
  Touch to access advanced settings.

Notifications

• Notification sounds
  Touch to set your sound notification preferences.

• Notification light
  Touch to set your notification light preferences.

• Vibration
  Mark the checkbox to enable/disable vibration with incoming messages.

• Group chat notifications
  Mark the checkbox to notify you about new group chat messages.

• Privacy mode
  Mark the checkbox to turn on privacy mode, under which mode the message text and sender will not be displayed for new notifications.
4.2 Gmail/Email

The first time you set up your phone, you can select to use an existing Gmail account or to create a new Email account.

4.2.1 Gmail

As Google’s web-based email service, Gmail is configured when you first set up your phone. Gmail on your phone can be automatically synchronised with your Gmail account on the web. Unlike other kinds of email account, each message and its replies in Gmail are grouped in your inbox as a single conversation; all emails are organised by labels instead of folders.

To access Gmail

From the Home screen, touch the Application tab to enter the applications list, then touch Gmail.

Gmail displays messages and conversations from one single Gmail account at a time. If you own more than one account, you can add an account by touching the icon and select Settings from Inbox screen, then touch ADD ACCOUNT. When finished, you can switch to another account by touching the account name from Inbox screen, then select the account you want to view.

To create and send emails

1 Touch from Inbox screen.
2 Enter the recipient(s)’s email address in To field.
3 If necessary, touch the popup menu icon to add a copy or a blind copy to the message.
4 Enter the subject and the content of the message.
5 Touch icon and select Attach file to add an attachment.
6 Finally, touch the icon to send.
7 If you do not want to send the mail out right away, you can touch the icon and then **Save draft** or touch the **Back** key to save a copy. To view the draft, touch your account name to display all labels, then select **Drafts**.

If you do not want to send or save the mail, you can touch the icon and then touch **Discard**.

To add a signature to emails, touch the icon and then touch **Settings** from inbox screen, choose an account, then touch **Signature**.

**To receive and read your emails**

When a new email arrives, you will be notified by a ringtone or vibration, and an icon will appear on Status bar.

Touch and drag down the Status bar to display the Notification panel, touch the new email to view it. Or you can also open the Gmail Inbox label and touch the new mail to read it.

You can search for an email by sender, recipient, subject, etc.

- Touch the icon from Inbox screen.
- Enter the keyword you want to search for in the searching box and touch on the software keyboard.

**To reply or forward emails**

**Reply**

When viewing an email, touch to reply to it.

**Reply all**

Touch and select **Reply all** to send a message to all people in a mail loop.

**Forward**

Touch and select **Forward** to forward the received mail to other people.

4.2.2 **Email**

Besides your Gmail account, you can also set up external email accounts on your phone.

Touch the Application tab from the Home screen, then select **Email**.

An email wizard will guide you through the steps to set up an email account.

1. Select your account from the suggested list, and touch **NEXT**.
2. Enter the email address and password of the account you want to set up.
3. Touch Next. If the account you entered is not provided by your service provider in the phone, you will be prompted to go to the email account settings screen to enter settings manually. Or you can touch **MANUAL SETUP** to directly enter the incoming and outgoing settings for the email account you are setting up.

4. Set up your account options.

5. Enter the account name and display name in outgoing emails.

6. To add another email account, you can touch key and **Settings**. Touch **Add account** to create a new account.

**To create and send emails**

1. Touch the icon on Inbox screen.
2. Enter recipient(s) email address(es) in the **To** field.
3. If necessary, touch the behind the To field. and touch **Add Cc/Bcc** to add a copy or a blind copy to other recipients.
4. Enter the subject and the content of the message.
5. Touch the key, then touch to add an attachment.
6. Finally, touch to send.
7. If you do not want to send the mail right away, you can touch key and **Save draft** or touch the **Back** key to save a copy.
5 Calendar, Alarm clock & Calculator

5.1 Calendar

Use Calendar to keep track of important meetings, appointments, etc.

To access this function, touch the Application tab from the Home screen, then touch Calendar.

5.1.1 Multimode view

To change your Calendar view, touch the date title to open the month view, or touch ▼ and select Schedule, Day, 3-day, Week or Month to access different view. Touch the icon  to return to Today's view.

5.1.2 To create new events

You can add new events from any Calendar view.

- Touch +.
- Fill in all required information for this new event. If it is a whole-day event, you can select All day.

When finished, touch SAVE from the top of the screen.

Before you can add an event, you must add at least one Calendar account and make a calendar visible.

To delete or edit an event

To edit or delete an event, touch the icon  to edit the event and touch DELETE to delete an event.

5.1.3 Event reminder

If a reminder is set for an event, the upcoming event icon will appear on the Status bar as a notification when the reminder time arrives.

Touch and drag down the status bar to open the Notification panel, touch event name to view the Calendar notification list.

Touch the Back key to keep the reminders pending in the status bar and the Notification panel.
5.2 Clock
Your mobile phone has a built-in clock.
To access this function, touch the Application tab from the Home screen, then touch **Clock**.
Touch **+** to add or set an alarm.

5.2.1 To set an alarm
From **Clock** screen, touch **+** to enter the **Alarms** screen, then touch **+** to add a new alarm. Following options will show:

- **Time**
  Touch numbers to set the time for your alarm.

- **Repeat**
  Touch to select the days you want alarm to work.

- **Ringtone**
  Touch to select an alarm ringtone.

- **Vibrate**
  Mark the checkbox to activate/deactivate vibration.

- **Label**
  Touch to set a name for the alarm.

Touch an already existing alarm and touch **-** to delete the selected alarm.

5.2.2 To adjust alarm settings
Touch the **:** key from **Alarms** screen. The following options will be available under **Settings**:

Clock

- **Style**
  Touch to set **Analog** or **Digital** style.

- **Automatic home clock**
  Mark the checkbox to set home clock while travelling outside.

- **Home time zone**
  Touch to set home time zone.

Alarms

- **Silence after**
  Touch to set time silence.

- **Snooze length**
  Touch to choose length of snooze.

- **Alarm volume**
  Touch to set alarm volume.

- **Volume buttons**
  Touch to choose **Snooze**, **Dismiss** or **Do nothing** as volume buttons.

- **Start week on**
  Touch to select the first day of a week as per your preference from **Saturday**, **Sunday** or **Monday**.

5.3 Calculator
With Calculator you can solve many mathematical problems.
To open it, touch the Application tab from the Home screen, then touch **Calculator**.
There are two panels available: Basic panel and Advanced panel.
To switch between panels, select one of the following two ways:

- Touch and drag the basic screen to the left to open the Advanced panel.
- Or turn the device to the landscape mode from the basic panel to open the Advanced panel (1).

To view the calculation history, drag down the screen.

---

6 Getting connected

Your phone can connect to the Internet using either GPRS/EDGE/3G/4G or Wi-Fi.

6.1 Connecting to the Internet

6.1.1 GPRS/EDGE/3G/4G

The first time you turn on your phone with the SIM card inserted, it will automatically configure a mobile network service: GPRS, EDGE, 3G or 4G. If the network is not connected, you can turn on Mobile data on Settings > Data usage.

To check the network connection you are using, touch the Application tab on the Home screen, then touch Settings > More > Mobile networks > Access point names or Network operators.

To create a new access point

A new mobile network connection can be added to your phone with the following steps:

1. Touch on the Quick settings bar to get to Settings.
3. Then touch key to add new APN.
4. Enter the required APN information.
5. When finished, touch the key and Save.

---

(1) If "Settings\Display\When device is rotated\Stay in portrait view" is on, this item will not display.
To activate/deactivate Data roaming
When roaming, you can decide to connect/disconnect to a data service.
1 Touch on the Quick settings bar to get to Settings.
2 Touch More > Mobile networks.
3 Touch the switch to activate or deactivate data roaming.
4 When Data roaming is deactivated, you can still perform data exchange with a Wi-Fi connection (see "6.1.2 Wi-Fi").

When you are abroad, a fixed panel will appear in the notification drawer to allow you to enable or disable the service.

6.1.2 Wi-Fi
You can connect to the Internet when your phone is within range of a wireless network. Wi-Fi can be used on your phone even without a SIM card inserted.

To turn Wi-Fi on and connect to a wireless network
1 Touch on the Quick settings bar to get to Settings, then touch Wi-Fi.
2 Touch the switch to turn on/off Wi-Fi.
3 Turn on Wi-Fi: detailed information of all detected Wi-Fi networks is displayed in the Wi-Fi networks section.

4 Touch a Wi-Fi network to connect to it. If the network you selected is secured, you'll need to enter a password or other credentials (contact network operator for details). When you're finished, touch CONNECT.

To activate notification when a new network is detected
When Wi-Fi is on and the network notification is activated, the Wi-Fi icon will appear on the status bar whenever the phone detects an available wireless network within range. The following steps activate the notification function when Wi-Fi is on:
1 Touch on the Quick settings bar to get to Settings.
2 Touch Wi-Fi, then the key and select Advanced.
3 Touch the switch to activate/deactivate this function.

To add a Wi-Fi network
When Wi-Fi is on, you may add new Wi-Fi networks according to your preference.
1 Touch on the Quick settings bar to get to Settings.
2 Touch Wi-Fi, and then touch the and select Add network.
3 Enter the name of the network and any required network information.
4 Touch SAVE.
When successfully connected, your phone will be connected automatically the next time you are within range of this network.

To forget a Wi-Fi network
The following steps prevent automatic connections to networks which you no longer wish to use.
1 Turn on Wi-Fi, if it's not already on.
2 In the Wi-Fi screen, long press the name of the saved network.
3 Touch Forget network in the dialogue that opens.
6.2 Chrome

Using the Chrome browser you can enjoy surfing the Web.
To get onto the Web, go to the Home screen and touch the Chrome icon in the Favourites tray.

To go to a web page
On the Chrome browser screen, touch the URL box at the top, enter the address of the web page, then touch to confirm.

6.3 Connecting to Bluetooth devices

Bluetooth is a short-range wireless communication technology that you can use to exchange data, or connect to other Bluetooth devices for various uses.

To access this function, touch on the Quick settings bar to get to Settings, then touch Bluetooth. Your device and other available ones will show on the screen.

To turn on Bluetooth
1 Touch on the Quick settings bar to get to Settings, then touch Bluetooth.
2 Touch to activate/deactivate this function.

To make your phone more recognisable, you can change your phone name which is visible to others.
1 Touch on the Quick settings bar to get to Settings.
2 Touch Bluetooth.
3 Touch the key and select Rename this device.
4 Enter a name, and touch RENAME to confirm.

To pair/connect your phone with a Bluetooth device
To exchange data with another device, you need to turn Bluetooth on and pair your phone with the Bluetooth device with which you want to exchange data.
1 Touch on the Quick settings bar to get to Settings.
2 Touch Bluetooth.
3 Touch a Bluetooth device you want to be paired with in the list.
4 A dialog will pop up touch PAIR to confirm.
5 If the pairing is successful, your phone connects to the device.

To disconnect/unpair from a Bluetooth device
1 Touch after the device name you want to unpair.
2 Touch FORGET.

6.4 Connecting to a computer via USB

With the USB cable, you can transfer media files and other files between your phone and computer.

To connect:
- Use the USB cable that came with your phone to connect the phone to a USB port on your computer. You will receive a notification that the USB is connected.
- Open the Notification panel and touch Connected as a media device, then, in the next dialog, choose the way in which you want to transfer files.

Before using MTP, make sure that the driver (Windows Media Player 11 or higher version) has been installed.
To locate data you have transferred or downloaded in the internal storage:

1. Touch the Application tab from the Home screen to open the apps list.
2. Touch File Manager.

All data you have downloaded is stored in File Manager, where you can view media files (videos, photos, music and others), rename files, install apps onto your phone, etc.

6.5 To safely remove the microSD card from your phone

The microSD card can be removed from your phone any time the phone is powered off. To remove the microSD card while the phone is on, you must unmount the storage card from the phone first, to prevent corrupting or damaging the storage card.

To remove a microSD card

1. Touch on the Quick settings bar to get to Settings.
2. Touch Storage & USB > SD card.
3. Touch and select Settings > Eject.

Additionally, you can simply touch the icon besides the SD card to eject it.

With either way, you can safely remove the microSD card from the phone.

To format a microSD card

1. Touch on the Quick settings bar to get to Settings.
2. Touch Storage & USB > SD card.
3. Touch and select Settings > Format.
4. Touch ERASE & FORMAT to confirm.

6.6 Sharing your phone’s mobile data connection

You can share your phone’s mobile data connection with a single computer via a USB cable (USB tethering) or with up to eight devices at once by turning your phone into a portable Wi-Fi hotspot or via Bluetooth.

Sharing data may incur additional charges from your network operator. Extra fees may also be charged in roaming areas.

To share your phone’s data connection via USB

Use the USB cable that came along with your phone to connect the phone to a USB port on your computer.

1. Touch on the Quick settings bar to go to Settings.
3. Touch the switch beside USB tethering to activate/deactivate this function.

To share your phone’s data connection as a portable Wi-Fi hotspot

1. Touch on the Quick settings bar to go to Settings.
2. Touch More > Tethering & portable hotspot > Wi-Fi hotspot.
3. Touch the switch to activate/deactivate this function.

To share your phone’s data connection via Bluetooth

1. Touch on the Quick settings bar to go to Settings.
3. Touch the switch beside Bluetooth tethering to activate/deactivate this function.

To rename or secure your portable hotspot

When Portable Wi-Fi hotspot is activated, you could change the name of your phone’s Wi-Fi network (SSID) and secure its Wi-Fi network.

1. Touch on the Quick settings bar to go to Settings.
2 Touch More > Tethering & portable hotspot > Wi-Fi hotspot.
3 Touch Set up Wi-Fi hotspot to change the network SSID or set your network security.
4 Touch SAVE.

6.7 Connecting to virtual private networks
Virtual private networks (VPNs) allow you to connect to the resources inside a secured local network from outside that network. VPNs are commonly deployed by corporations, schools, and other institutions so that their users can access local network resources when not inside that network, or when connected to a wireless network.

To add a VPN
1 Touch on the Quick settings bar to get to Settings.
2 Touch More > VPN and then touch .
3 In the screen that opens, follow the instructions from your network administrator to configure each component of the VPN settings.
4 Touch SAVE.
The VPN is added to the list on the VPN settings screen.

Before adding a VPN, you should set a lock screen pattern, PIN code or password for your phone.

To connect/disconnect to a VPN
To connect to a VPN:
1 Touch on the Quick settings bar to get to Settings.
2 Touch More > VPN.
3 VPNs you have added are listed; touch the VPN you want to connect with.
4 In the dialog that opens, enter any requested credentials and touch CONNECT.

To disconnect:

• Open the Notification panel and touch the resulting notification for VPN disconnection.

To edit/delete a VPN
To edit a VPN:
1 Touch on the Quick settings bar to get to Settings.
2 Touch More > VPN.
3 VPNs you have added are listed; touch the icon next to the VPN you want to edit.
4 After finished, touch SAVE.
To delete:
Touch the icon next to the selected VPN, touch FORGET to delete it.

7 Google Play Store (1)
Google Play Store is an online software store, where you can download and install applications and games to your Android Powered Phone.

Touch the Application tab from the Home screen, then touch Play Store.

Touch the : key and then select Help&Feedback to enter Google Play Store help page for more information on this function.

(1) Depending on your country and operator.
8 Multimedia applications

8.1 Camera

Your mobile phone is fitted with a Camera for taking photos and shooting videos. Before using the Camera, be sure to remove the protective lens cover before use to avoid it affecting your picture quality. To take a photo when your phone is active, touch the Camera icon in the Favourites tray on your Home screen. If the phone is locked, press the Power button and then swipe the camera icon to the left to open the camera.

To take a picture

The screen acts as the viewfinder. First position the object or landscape in the viewfinder, touch the icon to take the picture which will be automatically saved.

To shoot a video

Touch on the bottom right of the screen to start recording a video.

Further operations when viewing a picture/video you have taken

• Touch the image on the bottom left of the screen to quickly view the picture you've taken.
• Touch the icon then Gmail, Bluetooth, MMS, etc to share the photo or video you have taken.
• Touch to access the Photos.
• Touch the Back key to return to the Camera or Camcorder.

8.1.1 Camera settings

Before taking a photo/shooting a video, touch the icon to adjust a number of settings in framing mode.

Back camera shooting mode

• MANUAL Touch to manually set ISO, shutter speed, or white balance as your wish.
• AUTO Auto mode is turned on.
• PANO Turn on the panorama function. Touch the shutter button to start taking panoramic photo and move the phone steadily along the direction indicated by the onscreen line. Once the preview frame is filled, the phone will automatically save the photo.
• Collage Switch to Collage shooting. Touch to open all options: touch to only capture one shot in a picture, or to stitch two shots into one picture, or to stitch four shots into one picture, or to close options.

Touch the icon to access camera settings and below options will display for you to choose from:

- Touch to switch between front/back camera
- Touch to turn on or off night mode
- Touch to turn on Timer
- Touch to turn on or off night mode
- Touch to turn on Flash
- Touch to open settings
- Pinch/Spread to zoom in/out or.
- Slide to switch camera mode from Manual, Auto, Pano or Collage.
- Touch to start recording video
- Touch to take a picture
- Touch to view pictures or videos you have taken

Touch to stop recording. The video will be automatically saved.
8.2 Photos

Photos acts as a media player for you to view photos and playback videos.

To open your Photos, touch the Application tab from the Home screen, then touch Photos.

*Photos*

Slide upward or downward to view more albums

To view a picture/play a video

Pictures and videos are displayed by albums in Gallery.

*Camera*

Touch to return to gallery's main screen

Slide upward or downward to view more pictures

• Touch an album and all pictures or videos will show on the screen.
• Touch the picture/video directly to view or play it.
• Slide upward/downward to view previous or next pictures/videos.

Editing pictures

You can edit pictures, add effects, crop, share, and set them as contact photo or wallpaper.

Select the picture you want to work on and touch the options available such as edit, share, crop or delete. Touch the  for more options.

Touch to access available options.

Touch to share the picture through selected apps

Touch to edit the picture.

Touch to crop the picture

Touch  in the full-screen picture view to edit a picture.

Retro effect: You can add photo frames and special effects to your photos. First, touch to crop the picture, then ✓ to confirm. Then you can add filters and effects from the options buttons below. Once you have finished editing the picture, touch to save.

Touch to adjust picture settings such as Exposure, vignette, etc.

Touch to add effects such as Punch, Vintage, B/W etc.

Touch to crop or rotate the picture.

After activating the crop mode, the cropping square appears in the middle of the picture. Select the portion to crop, touch ✓ to confirm and Save, or touch ✗ icon to cancel.

8.3 Play music

You can play music files stored on the microSD card in your phone. Music files can be downloaded from computer to microSD card using a USB cable.

To play your music, touch the Application tab from the Home screen, then touch Play Music.

You will find four categories in which all songs are classified: GENRES, ARTISTS, ALBUMS and SONGS. Slide left and right to see them all. Touch SHUFFLE ALL to shuffle all songs.
8.3.1 Playing music

Touch a song to play it.

Touch a song to play it.

Touch to search music
Touch to select Listen now, My Library or Playlists
Touch to play the current playlist in shuffle mode (tracks are played in random order)

Touch to pause/resume playback

Touch key to get to Settings

ACCOUNT

Touch to choose an account.

PLAYBACK

Equaliser Touch to adjust audio settings.

ABOUT PLAY MUSIC

Open-source licences Touch to read licences came with the app.

Version Check which version of Music you have.

While playing songs with Music you can still Pause, Play or Skip your music even if the screen is locked.

Touch when a song is highlighted for the following options:

Play next Touch to play the song you choose next.
Add to queue Touch to add the song into the now-playing queue.
Add to playlist Touch to add to a playlist.
Go to artist Touch to go to artist.
Go to album Touch to go to album.
Delete Touch to delete the song.

8.4 Video Player

To play a video, touch the Application tab from the Home screen, then touch Video Player.

Video Player is a small built-in video player that lists all your videos.

Touch an item from the list to play. While playing, touch a point on the timeline to jump to and play from.
9  Google Maps

9.1  Get My Location

9.1.1  Turn on GPS
To turn on your phone’s global positioning system (GPS) satellite receiver:
1 Touch on the Quick settings bar to go to Settings.
2 Touch Location.
3 Touch the switch beside Location and choose location mode you preferred.

9.1.2  Open Google Maps and view My Location
Touch the Application tab from the Home screen, then touch Maps.
Touch the icon on the map to view My Location.
The map will then centre on a blue dot. Your actual position will be at the blue dot.

9.2  Search for a location
In the search box, enter an address, a city or a local business.
Touch the search icon to search, and in a while your search results will appear on the map as red dots. You can touch one to show a label.

9.3  Save a location
Just like bookmarking a web address on the Internet, you can save any position on the map for later use. Just touch the red drop icon to bring up a menu about the location, then touch the SAVE icon to save it.

If there is no icon on the point you want to save, tap and hold on that location on the screen to create one.

To move the map, drag the map with your finger.
To zoom in and out of a map, pinch or spread your fingers, or you can also zoom in by double-tapping a location on screen.
9.4 Open Street View for a location

1 Long press a location to display its address at the bottom of the maps screen.
2 Drag up the details screen to sign in to save offline.
3 Touch 📍 icon to display a Street View thumbnail.

9.5 Get driving, public transportation or walking directions

9.5.1 Get suggested routes for your trip

Touch icon 🌐 from Maps screen.

1 Touch enter bar to edit your start point by entering an address or selecting a saved item.
2 Do likewise for your end point.
3 To reverse directions, touch ⬆️⬇️.
4 Then select a transport mode: driving by car, using public transportation, or walking directions.
5 Touch Route options to select Avoid motorways, Avoid tolls or Avoid ferries.
6 A couple of suggested routes will appear in a list. Touch any route to view its respective detailed direction.

10 Others

10.1 File Manager

To access this function, touch the Application tab from the Home screen, then touch File Manager.

File Manager works with both microSD card and phone storage.

File Manager displays all data stored on both microSD card and phone storage, including applications, media files; videos, pictures or audios you have captured; other data transferred via Bluetooth, USB cable, etc.

When you download an application from PC to microSD card, you can locate the application on File Manager, then touch it to install it in your phone.

File Manager allows you to perform and be really efficient with the following common operations: create (sub) folder, open folder/file, view, rename, move, copy, delete, play, share, etc.

10.2 Sound Recorder

To record a sound or voice memo, touch the Application tab from the Home screen, then touch Sound Recorder.
10.3 Radio

Your phone is equipped with a radio\(^{(1)}\). You can use the application as a traditional radio with saved channels or with parallel visual information related to the radio program on the display if you turn to stations that offer Visual Radio service.

To listen to the radio, touch the Application tab from the Home screen, then touch Radio.

Please insert a headset to listen to the radio. The headset is used as an antenna for the radio.

Available options:
- **Save channel**
  - Save the current tuned station to the channels list.
- **Scan channels**
  - Touch to scan all channels.
- **Audio mode**
  - Listen to the radio using loudspeaker or headset.
- **Delete**
  - Delete the channel.
- **Enter frequency**
  - Enter the frequency manually.
- **Station info**
  - Mark the checkbox to view the station info.
- **Exit**
  - Turn off the radio and exit radio application.

Touch to add the current station to favourites or remove it from the favourites.

Touch to decrease 0.1MHz

Touch to go to previous channel

Touch to increase 0.1MHz

Touch to go to next channel

(1) The quality of the radio depends on the coverage of the radio station in that particular area.
11 Settings

Drag down twice from the Notification panel and touch the Settings icon to access Settings.

11.1 Wireless & networks

11.1.1 Wi-Fi

Using Wi-Fi you can now surf the Internet without using your SIM card whenever you are in range of a wireless network. The only thing you have to do is to enter the Wi-Fi screen and configure an access point to connect your phone to the wireless network.

For detailed instructions on using Wi-Fi, please refer to "6.1.2 Wi-Fi".

11.1.2 Bluetooth

Bluetooth allows your phone to exchange data (videos, images, music, etc.) in a small range with another Bluetooth supported device (phone, computer, printer, headset, car kit, etc.).

For more information on Bluetooth, please refer to "6.3 Connecting to Bluetooth devices".

11.1.3 SIM cards

Manage your SIM cards for mobile data, calls & SMS.

- SIM slot 1
  Open to all Networks: Call, SMS, MMS, Data.

- SIM slot 2
  Open to all Networks: Call, SMS, MMS, Data.

Preferred SIM for

- Mobile data
  Mobile Data is available both for SIM slot 1 and SIM slot 2, but if one SIM is active the other SIM may not make transmit data.

- Calls
  You will be asked which SIM card to use every time you make a phone call if you choose Ask first. Or you can also set Always use SIM1 or SIM2 for calls.

- SMS messages
  You will be asked which SIM card to use every time you send a SMS if you choose Ask first. Or you can also set Always use SIM1 or SIM2 for calls.

11.1.4 Data usage

To enable/disable mobile data by touching the switch. Touch the Set mobile data limit switch, then drag the limit and warning lines to set the maximum amount of mobile data that you want to use. Your mobile data connection will be disabled when the specified limit is reached. You can also choose a data usage cycle to view the statistics and related applications of used data by your phone.

Touch the icon, and you can view more settings related to your data usage.

Data usage is measured by your phone, and your carrier may count differently.

11.1.5 More > Flight mode

Use the More > Flight mode to simultaneously disable all wireless connections including Wi-Fi, Bluetooth and more.

You can also select Flight mode in the phone options when pressing Power key.

11.1.6 More > Tethering & portable hotspot

This function allows you to share your phone's mobile data connection via USB or as a portable Wi-Fi access point (Please refer to "6.6 Sharing your phone's mobile data connection"
11.1.7 More > VPN

A mobile virtual private network (mobile VPN or mVPN) provides mobile devices with access to network resources and software applications on their home network, when they connect via other wireless or wired networks. Mobile VPNs are used in environments where workers need to keep application sessions open at all times, throughout the working day, as the user connects via various wireless networks, encounters gaps in coverage, or suspend-and-resumes their devices to preserve battery life. A conventional VPN can't survive such events because the network tunnel is disrupted, causing applications to disconnect, time out, fail, or even the computing device itself to crash.

For more information on VPN, please refer to "6.7 Connecting to virtual private networks"

11.1.8 More > Mobile networks

• Data roaming
  Touch the switch to connect to data services when roaming.

• Preferred network type
  Touch to select the preferred network type.

• Access point names
  You can select your preferred network with this menu.

• Network operators
  You can select a network operator.

11.2 Device

11.2.1 Home

Touch to set the Home screen style to Standard Home screen or Simple Home screen. Please refer to "1.3 Home screen"

11.2.2 Display

• Home screen
  Touch to switch to turn on the function of launching your favourite app by swiping right.

• Favourite Home screen app
  Touch to select the app that you prefer to be opened when you right swipe.

• Lock screen shortcuts
  Touch to select shortcuts that you want to display on lock screen.

• Screen mode
  Touch to set display picture

• Brightness level
  Touch to adjust the brightness of the screen.

• Wallpaper
  Touch to set the wallpaper.

• Sleep
  Touch to set the screen timeout.

• Daydream
  Touch to set the daydream.

• Font size
  Touch to set the font size.

• When device is rotated
  Touch to set whether to rotate the contents of the screen or stay in portrait view.
11.2.3  Sound & notification
Use the Sound settings to configure ringtones for different events and environments.

Sound

• Media volume  Slide to adjust the volume of music, video, games, etc.
• Alarm volume  Slide to adjust the volume of your alarms.
• Ring volume  Slide to adjust the volume of your ringtones, notifications and alerts.
• Also vibrate for calls  Touch to vibrate the phone for incoming calls.
• Do not disturb  Touch to select the prioritised apps for notification permission or customise the automatic rules.
• Phone ringtone  Touch to set your default incoming call ringtone.
• Default notification ringtone  Touch to set your default notification ringtone.
• Other sounds  Touch to set Dial pad tones, Screen locking sounds, Touch sounds and Vibrate on touch.

Notification

• When device is locked  Touch to select whether to show all notification content or don't show notification at all when device is locked.
• App notifications  Touch to set app notifications.

Advanced

• Notification access  Touch to view the notification listeners.
• Do Not Disturb access  Touch to view the apps which have requested Do Not Disturb access.

11.2.4  Apps
You use the Apps settings to view details about the applications installed on your phone, to manage their data and force them to stop, and to set whether you want to permit installation of applications that you obtain from web sites and emails.

11.2.5  Storage & USB
Use these settings to monitor the total and available space on your phone and, on your microSD card; to manage your microSD card; and, if necessary, to reset the phone, erasing all of your personal information.

Phone storage
This menu displays the amount of internal phone storage. The used space will be shown in green, which shows the amount of internal phone storage used by the operating system, its components, applications (including those you downloaded), permanent and temporary data.
11.2.6 Battery
In the Battery screen you can view the battery usage data since you last connected the phone to a power source. The screen also shows your battery status and how long it has been used since last charging. Touch one category, then you can learn its specific power consumption.

You can adjust power use via the screen brightness or screen timeout in the Display screen.

11.2.7 Memory
In the Memory screen you can view the total and available memory on your phone, including the average memory used by each application.

11.3 Personal
11.3.1 Location
Mode
Choose a mode for location access.

- **High accuracy** Use GPS, Wi-Fi, Bluetooth, or mobile networks to determine location.
- **Battery saving** Use Wi-Fi, Bluetooth, or mobile networks to determine location.
- **Device only** Use GPS to determine your location.

11.3.2 Security
Screen lock

- **None** Touch to disable screen unlock security.
- **Swipe** Touch to enable slide unlock mode.
- **Pattern** Touch to draw pattern to unlock screen.
- **PIN** Touch to enter a numeric PIN to unlock screen.
- **Password** Touch to enter a password to unlock screen.

Lock screen message
Touch to enter one message that displayed on the lock screen.

Smart lock
You must set a screen lock first when you enable this function,

**Set up SIM card lock**
Choose a SIM card you want to configure.

Mark the checkbox of **Lock SIM card** to lock the SIM card with PIN code.

Touch **Change SIM PIN** to change the PIN code.

**Make passwords visible**
Mark the checkbox to show passwords as you type.

**Device administrators**
Touch to view or deactivate device administrators.

**Unknown sources**
Mark the checkbox to permit installation of applications that you obtain from web sites, emails, or other locations other than Android Market.

To protect your phone and personal data, download applications only from trusted sources, such as Google Play Store.

**Storage type**
It displays the storage type of your device.
Trusted credentials
Touch to display trusted CA certificates.

Install from storage
Touch to install encrypted certificates from the phone storage.

Clear credentials
Touch to remove all credentials.

Trusted agents
Touch to view or deactivate trusted agents.

Screen pinning
Touch to set screen pinning.

Apps with usage access
Touch to set the app access.

11.3.3 App permission
Touch to view or change app permission.

11.3.4 Accounts
Use the settings to add, remove, and manage your Email and other supported accounts. You can also use these settings to control how and whether all applications send, receive, and synchronise data on their own schedules, and whether all applications can synchronise user data automatically.

Add account
Touch to add an account for selected app.

11.3.5 Google
This phone offers you Google account and services setting options.

11.3.6 Language & input
Use the Language & input settings to select the language for the text on your phone and for configuring the onscreen keyboard. You can also configure voice input settings and the pointer speed.

Language
Touch to select the language and the region you want.

Spell checker
Mark the checkbox to enable the system to show suggested words.

Personal dictionary
Touch to open a list of the words you’ve added to the dictionary. Touch a word to edit or delete it. Touch the add button (+) to add a word.

Current Keyboard
Touch to select a default input method.

Android Keyboard
- Languages
Touch to set input language and method.
- Preferences
Touch to select your typing preference, such as Auto-capitalisation, Double-space full stop, Vibrate on keypress, etc.
- Appearance & layouts
Touch to select the keyboard theme and the customised input styles you preferred.
- Gesture Typing
Touch to set up your gesture typing, such as Enable gesture typing, Dynamic floating preview, etc.
- Text correction
Touch to show various options that aim to facilitate the text organisation, such as Auto correction which could correct mistyped words automatically, Show correction suggestions which could display suggested words while typing, etc.
• **Advanced**
Touch to view more advanced settings for Google keyboard, such as Key pop-up dismiss delay, Keypress vibration duration, etc.

**Google voice typing**
Touch to configure settings for Google voice typing.

**Text-to-speech output**

• **Prefered engine**
Touch to choose a preferred text-to-speech engine, touch the Settings icon to show more choices for each engine.

• **Speech rate**
Touch to open a dialog where you can select how quickly you want the synthesiser to speak.

• **Listen to an example**
Touch to play a brief sample of the speech synthesiser, using your current settings.

• **Default language status**
Touch to show status of default language.

**Pointer speed**
Touch to open a dialog where you can change the pointer speed, touch OK to confirm.

---

### 11.3.7 Backup & reset

**Back up my data**
Mark the checkbox to back up your phone’s settings and other application data to Google Servers, with your Google Account. If you replace your phone, the settings and data you’ve backed up are restored onto the new phone for the first time you sign in with your Google Account. If you mark this option, a wide variety of settings and data are backed up, including your Wi-Fi passwords, bookmarks, a list of the applications you’ve installed, the words you’ve added to the dictionary used by the onscreen keyboard, and most of the settings that you configure with the Settings application. If you unmark this option, you stop backing up your settings, and any existing backups are deleted from Google Servers.

**Backup account**
Touch to back up your account.

**Automatic restore**
Switch to restore your backed up settings or other data when you reinstall an application.

**Network settings reset**
Touch and press **RESET SETTINGS** button to reset all network settings, including Wi-Fi, Mobile data and Bluetooth.

**Factory data reset**
Erase all of your personal data from internal phone storage, including information about your Google Account, any other accounts, your system and application settings, and any downloaded applications. Resetting the phone does not erase any system software updates you’ve downloaded or any files on your microSD card, such as music or photos. If you reset the phone in this way, you’re prompted to re-enter the same kind of information as when you first started Android.
When you are unable to power on your phone, there is another way to perform a factory data reset by using hardware keys. Press the Volume up key and the Power key at the same time until the screen lights up.

11.4 System

11.4.1 Date & time
Use Date & time settings to customise your preferences for how date and time are displayed.

Automatic date & time
Touch to select Use network-provided time or Off.

Automatic time zone
Touch to use the network-provided time zone. Or turn it off to set all values manually.

Set date
Touch to open a dialog where you can manually set the phone’s date.

Set time
Touch to open a dialog where you can manually set the phone’s time.

Select time zone
Touch to open a dialog where you can set the phone’s time zone.

Use 24-hour format
Mark the checkbox to display the time using 24-hour clock format.

Choose date format
Touch to open a dialog where you can select the format for displaying dates.

11.4.2 Accessibility
You use the Accessibility settings to configure any accessibility plug-ins you have installed on your phone.

Captions
Touch to activate/deactivate captions for phone screen.

Magnification gestures
Touch to turn on/off to activate/deactivate zoom in/out function by triple-tapping the screen.

Large text
Touch the switch to enlarge the screen text.

High contrast text
Touch the switch to activate/deactivate high contrast text.

Power button ends call
Touch the switch to enable/disable Power button ends call.

Auto-rotate screen
Touch the switch to activate/deactivate auto-rotate screen.

Speak passwords
Touch the switch to speak/mute passwords while typing.

Help tips
Touch the switch to enable/disable help tips.

Text-to-speech output
Refer to "Preferred engine/ Speech rate/ Listen to an example/ Default language status" setting before.

Touch & hold delay
Touch to adjust the duration of touch and hold delay. This function enables your phone to set how long you need to hold your touch down before it registers.

Colour inversion
Touch the switch to turn on/off colour inversion.
End user licence agreement

You have purchased a device from SAMSUNG Electronics Co., Ltd. ("SAMSUNG") and you are therefore bound by the terms of use of the device and the service(s) provided by SAMSUNG. By using or installing the device and the service(s) provided by SAMSUNG, you are agreeing to be bound by these terms of use and you also acknowledge that you have read, understood, and agreed to these terms of use.

11.4.3 Printing

Your phone supports wireless printing to enabled printers and online services.

11.4.4 Regulatory & safety

Touch to view Regulatory & safety information, including Product model, Manufacturer name, etc.

11.4.5 Developer options

To access this function, touch Settings > About phone, then touch Build number 7 times. Now Developer options is available.

The Development screen contains settings that are useful for developing Android applications. For full information, including documentation of the Android applications and development tools, see the Android developer web site (http://developer.android.com).

Take bug report

Touch to select to collect information about your current device state and send as an email message.

Desktop backup password

Touch to set/change/remove desktop full backup password.

Stay awake

Touch to prevent the screen from dimming and locking when the phone is connected to a charger or to a USB device that provides power. Don’t use this setting with a static image on the phone for long periods of time, or the screen may be marked with that image.

Enable Bluetooth HCI snoop log

Touch to capture all Bluetooth HCI packets in a file.

Running services

Touch to view and control currently running services.

USB debugging

Touch to permit debugging tools on a computer to communicate with your phone via a USB connection.

Revoke USB debugging authorisations

Touch to revoke access to USB debugging from all computers you've previously authorised.

Bug report shortcut

Touch to show a button in the power menu for taking a bug report.

Select mock location app

Touch to permit an application on a computer to control where the phone believes it is located, rather than using the phone’s own internal tools for this purpose.

Enable view attribute inspection

Touch to enable view attribute inspection.

Select debug app

Touch to select debug app.

Wait for debugger

Touch to wait for debugger to attach before executing.

Verify apps over USB

Touch to check apps installed via ADB/ADT for harmful behaviour.

Logger buffer size

Touch to select logger size per log buffer from 64K, 256K, or 1M.

Wireless Display certification

Touch to show options for Wireless Display certification.

Enable Wi-Fi Verbose Logging

Touch to increase Wi-Fi logging level, show per SSID RSSI in Wi-Fi Picker.
**Aggressive Wi-Fi to mobile handover**
Touch to enable this function. When enabled, Wi-Fi will be more aggressive in handing over the data connection to Cellular, when Wi-Fi signal is low.

**Always allow Wi-Fi Roam Scans**
Touch to allow/disallow Wi-Fi Roam Scans.

**Use legacy DHCP client**
Touch to use the DHCP client from Lollipop instead of the new Android DHCP client.

**Mobile data always active**
Touch to enable mobile data always-active mode, even when Wi-Fi is active (for fast network switching).

**Select USB Configuration**
Touch to select USB configuration.

**Show touches**
Touch to show visual feedback for touches.

**Pointer location**
Touch to show current touch data.

**Show surface updates**
Touch to flash entire window surfaces when they update.

**Show layout bounds**
Touch to show clip bounds, margins, etc.

**Force RTL layout direction**
Touch to force screen layout direction to RTL for all locales.

**Window animation scale**
Touch to adjust the animation scale for your window.

**Transition animation scale**
Touch to adjust the animation scale while performing transition.

**Animator duration scale**
Touch to adjust the animator duration scale.

**Simulate secondary displays**
Touch to adjust the Simulate secondary displays.

**Force GPU rendering**
Touch to use 2D hardware acceleration in applications.

**Show GPU view updates**
Touch to flash views inside windows when drawn with the GPU.

**Show hardware layers updates**
Touch to flash hardware layers green when they update.

**Debug GPU overdraw**
Touch to show GPU overdraw.

**Debug non-rectangular clip operations**
Touch to show non-rectangular clip operations.

**Force 4x MSAA**
Touch to enable 4x MSAA.

**Disable HW overlays**
Touch to select to always use GPU for screen compositing.

**Simulate colour space**
Touch to disable or select simulate colour space.

**Disable USB audio routing**
Touch to disable automatic routing to USB audio peripherals.

**Strict mode enabled**
Touch to enable strict mode. After enabled, the screen will flash when applications do long operations on the main thread.
Show CPU usage
Touch to show current CPU usage.

Profile GPU rendering
Touch to use 2D hardware acceleration in applications.

Enable OpenGL traces
Touch to adjust OpenGL traces.

Don’t keep activities
Touch to destroy every activity as soon as the user leaves it.

Background process limit
Touch to change the limit for background processes.

Show all ANRs
Touch to show "Application Not Responding" dialogue for background applications.

Inactive apps
Touch to view the inactive apps list.

11.4.6 About phone
This contains information about things ranging from Legal information, Model number, Android version, Baseband version, Kernel version, Build number to those listed below:

Software updates
Touch to check for system updates.

Status
This contains the status of the Battery status, Battery level, SIM status, IP address, etc.

Legal information
Touch to view legal information.

12 Update your phone’s software
Using the FOTA (Firmware Over The Air) Upgrade tool you can update your phone’s software.

To access Software updates, touch Settings > About phone > Software updates. Touch Check for updates and the phone will search for the latest software. If you want to update the system, please touch DOWNLOAD, and when that’s finished, touch INSTALL to complete the upgrade. Now your phone will have the latest version of the software.

You should turn on data connection before searching for updates. Settings for auto-check intervals and reminders about upgrades are also available once you restart the phone.

If you have chosen auto-check, when the system discovers the new version, the icon will appear in the status bar. Touch the notification to access the Software updates directly.

During FOTA downloading or updating, to avoid errors in locating the correct update packages, do not change your default storage location.
13 Product safety information

Pictograms and graphic symbols

⚠️ Read the Safety & warranty information guide
⚠️ Do not use while re-fuelling
⚠️ Do not use hand-held while driving
⚠️ This device may produce a bright or flashing light
⚠️ When using the phone, make sure it is kept at least 5 mm away from your head or body
⚠️ Do not dispose of in a fire
⚠️ Small parts may cause a choking hazard
⚠️ Avoid contact with magnetic media
⚠️ This device may produce a loud sound
⚠️ Avoid extreme temperatures
⚠️ Keep away from pacemakers and other personal medical devices
⚠️ Avoid contact with liquid, keep dry
⚠️ Switch off when instructed in hospitals and medical facilities
⚠️ Do not try to disassemble
⚠️ Switch off when instructed in aircraft and airports
⚠️ Do not rely on this device for emergency communications
⚠️ Switch off in explosive environments
⚠️ Only use approved accessories

Product safety information

RF exposure

General statement on RF energy
Your phone contains a transmitter and a receiver. When it is ON, it receives and transmits RF energy. When you communicate with your phone, the system handling your call controls the power level at which your phone transmits.

Specific Absorption Rate (SAR)
Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organisation ICNIRP and include safety margins designed to ensure the protection of all persons, regardless of age and health. The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg and the highest SAR value for this device when tested at the ear was 0.34 W/kg (1) and when tested near the body (at a distance of 5 mm) the highest SAR value was 1.70 W/kg (2). As mobile devices offer a range of functions, they can be used in other positions, such as on the body as described in this user guide.

As SAR is measured utilising the device’s highest transmitting power, the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum power required to communicate with the network.

Body worn operation
Important safety information regarding radiofrequency radiation (RF) exposure.

(1) The tests are carried out in accordance with IEC Standard 62209-1.
(2) The tests are carried out in accordance with IEC Standard 62209-2.
When using the phone next to your body (other than in your hand or against your head), the device should be in an approved accessory or positioned 5mm away from your body to ensure your use is consistent with how the device is tested for compliance. Failure to observe these instructions could result in your RF exposure exceeding the relevant guideline limits.

**Limiting exposure to radio frequency (RF) fields**

For individuals concerned about limiting their exposure to RF fields, the World Health Organisation (WHO) provides the following advice:

Precautionary measures: present scientific information does not indicate the need for any special precautions for the use of mobile phones. If individuals are concerned, they might choose to limit their own or their children’s RF exposure by limiting the length of calls, or using ‘hands-free’ devices to keep mobile phones away from the head and body.

Further information on this subject can be obtained from the WHO home page http://www.who.int/peh-emf WHO Fact sheet 193: June 2011.

---

**Regulatory information**

The following approvals and notices apply in specific regions as noted.
**Distraction**
**Driving**
Full attention must be given to driving at all times in order to reduce the risk of an accident. Using a phone while driving (even with a hands free kit) causes distraction and can lead to an accident. You must comply with local laws and regulations restricting the use of wireless devices while driving.

**Operating machinery**
Full attention must be given to operating machinery in order to reduce the risk of an accident.

**Product handling**

**General statement on handling and use**
You alone are responsible for how you use your phone and any consequences of its use.

You must always switch off your phone wherever the use of a phone is prohibited. Use of your phone is subject to safety measures designed to protect users and their environment.

- Always treat your phone and its accessories with care and keep it in a clean and dust-free place.
- Do not expose your phone or its accessories to open flames or lit tobacco products.
- Do not expose your phone or its accessories to liquid, moisture or high humidity.
- Do not drop, throw or try to bend your phone or its accessories.
- Do not use harsh chemicals, cleaning solvents, or aerosols to clean the device or its accessories.
- Do not paint your phone or its accessories.
- Do not attempt to disassemble your phone or its accessories, only authorised personnel must do so.
- Do not expose your phone or its accessories to extreme temperatures, minimum -10 and maximum +50 degrees Celsius.
- Please check local regulations for disposal of electronic products.
- Do not carry your phone in your back pocket as it could break when you sit down.

**Small children**
Do not leave your phone and its accessories within the reach of small children or allow them to play with it. They could hurt themselves or others, or could accidentally damage the phone.

Your phone contains small parts with sharp edges that may cause an injury or which could become detached and create a choking hazard.

**Demagnetisation**
To avoid the risk of demagnetisation, do not allow electronic devices or magnetic media close to your phone for a prolonged time.

**Electrostatic discharge (ESD)**
Do not touch the SIM card’s metal connectors.

**Antenna**
Do not touch the antenna unnecessarily.

**Normal use position**
When placing or receiving a phone call, hold your phone to your ear, with the bottom towards your mouth or as you would a fixed line phone.

**Air bags**
Do not place a phone in the area over an air bag or in the air bag deployment area.

Store the phone safely before driving your vehicle.

**Seizures/Blackouts**
This phone is capable of producing bright flashing lights.

**Repetitive motion injuries**
To minimise the risk of RSI, when texting or playing games with your phone:
• Do not grip the phone too tightly.
• Press the buttons lightly.
• Make use of the special features in the handset which minimise the number of buttons which have to be pressed, such as message templates and predictive text.
• Take lots of breaks to stretch and relax.

Emergency calls
This phone, like any wireless phone, operates using radio signals, which cannot guarantee connection in all conditions. Therefore, you must never rely solely on any wireless phone for emergency communications.

Loud noise
This phone is capable of producing loud noises which may damage your hearing. Prolonged exposure to music at full volume on the music player may damage the listener's hearing. Use the recommended headphones only.

PROTECT YOUR HEARING
To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker is in use.

Bright Light (if device supports it)
This phone is capable of producing flash of light or use as a torch, do not use it too close to the eyes.

Phone heating
Your phone may become warm during charging and during normal use.

Electrical safety
Accessories
Use only approved accessories.
Do not connect with incompatible products or accessories.
Take care not to touch or allow metal objects, such as coins or key rings, to contact or short-circuit the battery terminals.

Connection to a car
Seek professional advice when connecting a phone interface to the vehicle's electrical system.

Faulty and damaged products
Do not attempt to disassemble the phone or its accessories.

Only qualified personnel must service or repair the phone or its accessories.
If your phone or its accessories have been submerged in water, punctured, or subjected to a severe fall, do not use them until you have taken it to be checked at an authorised service centre.

Battery handling & safety
Always switch the device off and disconnect the charger before removing the battery.
Only use the battery and charger supplied, or manufacturer approved replacements intended for use with your phone. Using other batteries and chargers could be dangerous.
Do not disassemble or short-circuit the battery. Accidental short-circuiting can occur if a metallic object such as a key, paper clip, or pen touches the terminals of the battery.
Improper battery use may result in a fire, explosion, or other hazard. If you believe the battery has been damaged, do not use it, take it to a service centre for testing.

Interference
General statement on interference
Care must be taken when using the phone in close proximity to personal medical devices, such as pacemakers and hearing aids.

Pacemakers
Pacemaker manufacturers recommend that a minimum separation of 15 cm be maintained between a mobile phone and a pacemaker to avoid potential interference with the pacemaker. To achieve this use the phone on the opposite ear to your pacemaker and do not carry it in a breast pocket.

Hearing aids
People with hearing aids or other cochlear implants may experience interference noises when using wireless devices or when one is nearby. The level of interference will depend on the type of hearing device and the distance from the interference source, increasing the separation between them may reduce the interference. You may also consult your hearing aid manufacturer to discuss alternatives.
Medical devices
Please consult your doctor and the device manufacturer to determine if operation of your phone may interfere with the operation of your medical device.

Hospitals
Switch off your wireless device when requested to do so in hospitals, clinics or health care facilities. These requests are designed to prevent possible interference with sensitive medical equipment.

Aircraft
Switch off your wireless device whenever you are instructed to do so by airport or airline staff. Consult the airline staff about the use of wireless devices on board the aircraft, if your device offers a ‘flight mode’ this must be enabled prior to boarding an aircraft.

Interference in cars
Please note that because of possible interference to electronic equipment, some vehicle manufacturers forbid the use of mobile phones in their vehicles unless a handsfree kit with an external antenna is included in the installation.

Explosive environments
Petrol stations and explosive atmospheres
In locations with potentially explosive atmospheres, obey all posted signs to turn off wireless devices such as your phone or other radio equipment. Areas with potentially explosive atmospheres include fuelling areas, below decks on boats, fuel or chemical transfer or storage facilities, areas where the air contains chemicals or particles, such as grain, dust, or metal powders.

Blasting caps and areas
Turn off your mobile phone or wireless device when in a blasting area or in areas posted with notifications requesting "two-way radios" or "electronic devices" are turned off to avoid interfering with blasting operations.

Protection against theft
Your telephone is identified by an IMEI (phone serial number) shown on the packaging label and in the product’s memory. We recommend that you note the number the first time you use your telephone by entering *#06# and keep it in a safe place. It may be requested by the police or your operator if your telephone is stolen. This number allows your mobile telephone to be blocked preventing a third person from using it, even with a different SIM card.

This symbol on your telephone, the battery and the accessories means that these products must be taken to collection points at the end of their life:
- Municipal waste disposal centres with specific bins for these items of equipment.
- Collection bins at points of sale.

They will then be recycled, preventing substances being disposed of in the environment, so that their components can be reused.

In European Union countries:
These collection points are accessible free of charge. All products with this sign must be brought to these collection points.

In non European Union jurisdictions:
Items of equipment with this symbol are not to be thrown into ordinary bins if your jurisdiction or your region has suitable recycling and collection facilities; instead they are to be taken to collection points for them to be recycled.

CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

If the battery cover is removed please avoid contact to the antennas and the antenna contacts which can contain Nickel. People allergic or sensitive to this metal should avoid contact at all times.

The protective film that came with your phone helps protect the screen from scratches. It minimizes the risk of damaging your phone screen. Do not remove the film.

(1) Contact your network operator for service availability.

**Telephone warranty**

**WARRANTY TERMS AND CONDITIONS**

1. Vodafone undertakes the warranty of this Mobile Phone for a period of one (1) year from the date of Purchase by the original owner (not transferable) under normal use.

2. The Battery has a limited warranty for twelve (12) months, and charger for twelve (12) months against manufacturing defects. Other accessories have a limited warranty for twelve (12) months against manufacturing defects.

3. This Warranty does not cover damage resulting from:
   a) Normal wear & tear of the equipment;
   b) Defects and damages due to the equipment being used other than its normal and customary manner;
   c) An unauthorised disassembly, repair, alteration or modification being carried out;
   d) Misuse, abuse, negligence or accident howsoever caused;
   e) Defects or damage arising from improper testing, operation, maintenance, installation, or any alteration or modification;
   f) Defects or damage due to spillage of food or liquids, corrosion, rust or the use of wrong voltage;
   g) Scratches or damage to plastic surfaces and all other externally exposed parts that are due to normal customer use;

4. The phone needing service/repair must be delivered at the user’s cost.

5. This warranty will be null and void in any of the following events:
   a) If the serial number or warranty seal on the equipment has been defaced or removed.
   b) If any term contained in this warranty has been altered or modified in any way without prior written consent of Vodafone.

6. The limited warranty extends only to customer who purchase the product in one of the countries (or areas) set forth at the end of this document. The limited warranty is only valid in Vodafone’s intended country (or area) of sale of the Product.

7. If the product is returned to Vodafone after the expiration of the warranty period, Vodafone’s normal service policies shall apply and the Consumer will be charged accordingly.
   a) Vodafone neither assumes for it any other obligation or liability beyond that which is expressly provided for in this limited warranty.
   b) All warranty information, product features and specifications are subject to change without notice.

8. THIS WARRANTY IS IN LIEU OF ANY AND OTHER WARRANTIES EXPRESSED OR IMPLIED, SPECIFICALLY INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. VODAFONE ASSUMES NO LIABILITY FOR THE BREACH OF THE WARRANTY BEYOND CORRECTING THE BREACH IN THE MANNER DESCRIBED ABOVE. IN NO EVENT SHALL VODAFONE BE LIABLE FOR CONSEQUENCES.
15 Accessories

The latest Vodafone Smartphones offers a built-in handsfree feature that allows you to use the telephone from a distance, placed on a table for example. For those who prefer to keep their conversations confidential, an earpiece is also available known as the headset.

1. Vodafone Smart turbo 7 dual
2. Charger
3. Data cable
4. Headset
5. Quick Start Guide
6. Safety and Warranty information

Only use your telephone with the batteries, chargers and accessories in your box.
