Optional make-whole redemption	We have the right to redeem the notes, in whole or in part, at any time and from time to time at a redemption price equal to the greater of (1) 100% of the principal amount of the notes plus accrued interest to the date of redemption and (2) as determined by the quotation agent, the sum of the present values of the remaining scheduled payments of principal and interest on the notes (excluding any portion of such payments of interest accrued as of the date of redemption) discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the adjusted treasury rate, plus 20 basis points, plus accrued interest to the date of redemption. Comparable treasury price means, with respect to any redemption date, the average of the reference treasury dealer quotations for such redemption date. Quotation agent means the reference treasury dealer appointed by the trustee after consultation with us. Optional tax redemption

We may redeem the notes before they mature if we are obligated to pay additional amounts due to changes on or after the date of this prospectus supplement in U.K. withholding tax requirements, a merger or consolidation with another entity or a sale or lease of substantially all our assets and other limited circumstances described under “Description of Debt Securities We May Offer—Payment of Additional Amounts” in the attached prospectus. In that event, we may redeem the outstanding notes in whole but not in part at any time, at a price equal to 100% of their principal amount plus accrued interest to the date fixed for redemption.

We will issue the notes in fully registered form in denominations of \$1,000 and integral multiples of \$1,000. Restrictive covenants	The indenture relating to the notes does not contain any covenants restricting our ability to make payments, incur indebtedness, dispose of assets, enter into sale and leaseback transactions, pledge our assets to secure borrowings, issue and sell capital stock, enter into transactions with affiliates, create or incur liens on our property or engage in business other than our present business.
Defeasance	The notes will be subject to the defeasance and covenant defeasance provisions in the indenture described under “Description of Debt Securities We May Offer—Defeasance and Discharge” in the attached prospectus.
Further Issuances	We may, at our option, at any time and without the consent of the then existing noteholders issue additional notes in one or more transactions subsequent to the date of this prospectus supplement with terms (other than the issuance date and, possibly, the first interest payment date) identical to the notes issued hereby. These additional notes will be deemed to be part of the same series as the notes offered hereby and will provide the holders of these additional notes the right to vote together with holders of the notes issued hereby.

Risk factors	You should carefully consider all of the information in this prospectus supplement and the attached prospectus, which includes information incorporated by reference. In particular, you should evaluate the specific factors under “Risk Factors” beginning on page 3 of the prospectus and on page 29 of our Annual Report on Form 20-F for the fiscal year ended March 31, 2002, which is incorporated by reference in this prospectus supplement, for risks involved with an investment in the notes.

Timing and delivery	We currently expect delivery of the notes to occur on or about November 26, 2002.

USE OF PROCEEDS

We estimate that the net proceeds (after deduction of underwriting discount and estimated offering expenses) from the sale of the notes will be approximately \$490,280,150. We intend to use the proceeds from the sale of the notes for general corporate purposes.

TAXATION

This section supplements the discussion under “Certain U.S. Federal and U.K. Tax Considerations—U.S. Federal Income Taxation—Debt Securities” in the attached prospectus relating to the notes.

The U.S. Federal income tax consequences of directly owning a note are generally described under “Certain U.S. Federal and U.K. Tax Considerations—U.S. Federal Income Taxation—Debt Securities” in the attached prospectus relating to the notes, except that (1) capital gain of a non-corporate U.S. holder will be taxed at 18%, if a note is held for more than five years, (2) the “backup withholding” rate has been reduced to 30% for payments made in 2002 and 2003, 29% for payments made in 2004 and 2005 and 28% for payments made in 2006 and thereafter, and (3) the finalized treasury regulations described in the attached prospectus relating to the notes are effective.

The U.K. income tax consequences of directly owning a note are generally described under “Certain U.S. Federal and U.K. Tax Considerations — U.S. Federal Income Taxation — Debt Securities” in the attached prospectus, subject to the comments set out below. The comments below are of a general nature based on U.K. law and practice. They do not necessarily apply where the income is deemed for tax purposes to be the income of any other person. Any holders of notes who are in doubt as to their own tax position should consult their professional advisor.

- So long as the notes continue to be listed on a recognized stock exchange within the meaning of section 841 Income and Corporation Taxes Act 1988, the notes will qualify for the “Quoted Eurobond” exemption and payments of interest may be made without withholding or deduction for or on account of U.K. income tax (including withholding by paying and collecting agents). The exemption from withholding or deduction for or on account of U.K. income tax applies so long as the notes qualify for the “Quoted Eurobond” exemption.
- Persons in the United Kingdom paying interest to or receiving interest on behalf of another person may be required to provide certain information to the United Kingdom Inland Revenue regarding the identity of the payee or the person entitled to the interest and, in certain circumstances, such information may be exchanged with tax authorities in other countries.
- Holders of the notes should note that the provisions relating to additional amounts described under “Description of Debt Securities We May Offer — Payment of Additional Amounts” in the attached prospectus would not apply if the Inland Revenue sought to assess directly the person entitled to the relevant interest to U.K. tax. However exemption from, or reduction of, such U.K. tax liability might be available under an appropriate double taxation treaty.
- In relation to inheritance tax, since the notes are fully registered, if a register is maintained in the United Kingdom, there may be a liability for inheritance tax.
- Since the publication of proposals in May 1998 by the European Commission regarding the taxation of income of non-residents, the Council of the European Union has published a revised draft directive regarding the taxation of savings income. It is proposed that, subject to a number of important conditions being met, Member States will be required to provide to the tax authorities of another Member State details

[Table of Contents](#)

of payments of interest (or other similar income) paid by a person within its jurisdiction to an individual resident in that other Member State, except that Belgium, Luxembourg and Austria will instead operate a withholding system for a transitional period in relation to such payments. The proposed directive is not yet final, and may be subject to further amendment.

UNDERWRITING

We have entered into an underwriting agreement and a pricing agreement with the underwriters listed below. Subject to certain conditions, we have agreed to sell and each underwriter has severally agreed to purchase the principal amount of notes indicated opposite such underwriter's name in the following table.

Underwriters	Principal Amount of Notes
Banc of America Securities LLC	\$247,500,000
J.P. Morgan Securities Inc.	\$247,500,000
Total	\$495,000,000

Notes sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus. Any notes sold by the underwriters to securities dealers may be sold at a discount from the initial public offering price of up to 0.50% of the principal amount of the notes. Any such securities dealers may resell any notes purchased from the underwriters to certain other brokers or dealers at a discount from the initial public offering price of up to 0.25% of the principal amount of the notes. If all the notes are not sold at the initial offering price, the underwriters may change the offering price and the other selling terms.

The notes are new issues of securities with no established trading market. We have been advised by the underwriters that the underwriters intend to make a market in the notes but they are not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the notes.

Delivery of the notes will be made against payment on November 26, 2002. Trades of securities in the secondary market generally are required to settle in three business days, referred to as T+3, unless the parties to a trade agree otherwise. Accordingly, by virtue of the fact that the initial delivery of the notes will not be made on a T+3 basis, investors who wish to trade the notes before a final settlement will be required to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement.

In connection with the offering, the underwriters may purchase and sell notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater aggregate principal amount of notes than they are required to purchase in the offering. Stabilizing transactions consist of bids or purchases made for the purpose of preventing or retarding a decline in the market prices of notes while the offering is in progress.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the other underwriters a portion of the underwriting discount received by it because the underwriters have repurchased notes sold by or for the account of this underwriter in stabilizing or short covering transactions.

These activities by the underwriters may stabilize, maintain or otherwise affect the market prices of notes. As a result, the prices of notes may be higher than the prices that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected in the over-the-counter market or otherwise.

In the ordinary course of their respective businesses the underwriters and their affiliates have engaged and may in the future engage in various banking and financial services for and commercial transactions with us and our affiliates.

We estimate that our total allocable expenses of this offering, excluding the underwriters discount, will be approximately \$250,000.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act.

Table of Contents

Application will be made to list the notes on the New York Stock Exchange. We expect that the notes will be eligible for trading on the New York Stock Exchange within 30 days after delivery of the notes.

Each underwriter has agreed that, in connection with the distribution of the notes, directly or indirectly:

- it has not offered or sold and, prior to the expiry of the period of six months from the date of the issue of the notes, will not offer or sell any such notes to persons in the United Kingdom except to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or otherwise in circumstances which have not resulted and will not result in an offer to the public in the United Kingdom within the meaning of the Public Offers of Securities Regulations 1995;
- it has complied and will comply with all applicable provisions of the Financial Services and Markets Act 2000 (the “FSMA”) with respect to anything done by it in relation to the notes in, from or otherwise involving the United Kingdom; and
- it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue and sale of any notes in circumstances in which Section 21(1) of the FSMA does not apply to Vodafone.
