Invoicing options:

- 1. E-invoicing** is the primary, most preferred invoicing option due to its wide range of benefits. For suppliers, these key benefits are faster payments, less costs, fewer rejected invoices, increased productivity, enhanced accounts reconciliation as well as improved customer relationships and cash management.

Suppliers that are registered on the [Taulia](#) or [Ariba](#) e-invoicing solutions should send their invoices electronically. For further information or enrollment, please reach out to accounts-payable.uk@vodafone.com.

- 2. If e-invoicing is not possible, suppliers should send their invoice via Email:**

- Invoices must be sent in PDF / TIFF format to the email address

invoices.uk@vodafone.com

- 1 PDF/TIFF file should contain only 1 invoice or credit note
- Please ensure that PDF/TIFF file is monochrome (black and white) and that the invoice quality is readable. Handwritten instructions (like PO number) on PDF invoices are not identified by scanning application. If this is required, please use TIFF invoice image.
