

## Open

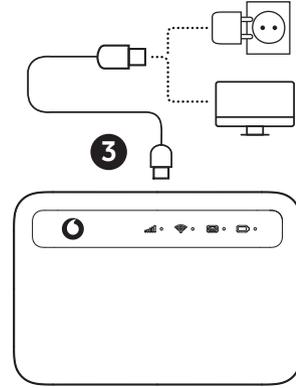

## Insert battery

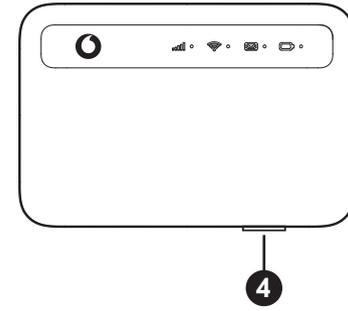

Reset button is inside the casing.

## Charge

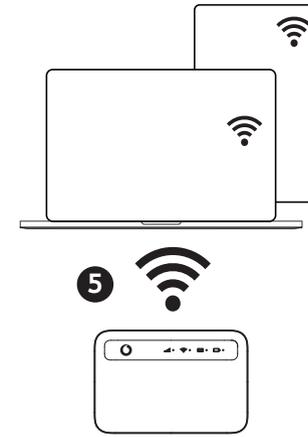

## Start

Press and hold the power key

## Connect

## Power-saving modes

Choose Wi-Fi on your computer, smartphone or tablet settings, then select your Mobile Wi-Fi network name.

Enter the password to connect and open the web interface.

When you first connect to the network you may be asked to activate your SIM. If you're asked to unlock your SIM card, go to <http://vodafonemobile.wifi> and enter the PIN for your SIM.

Turn over for more information about using your Vodafone Mobile Wi-Fi.

After **30 seconds** without a button being pressed, all the LED lights will turn off. Press any button to turn them on again.

After **10 minutes** without the Wi-Fi being used, the mobile network connection will turn off. When you press any key or when a device accesses the Wi-Fi, the network will be connected again automatically.

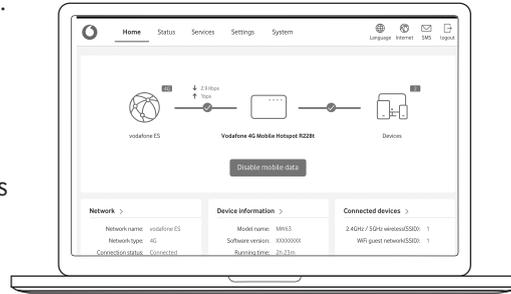

After **30 minutes** without the Wi-Fi being used, the Wi-Fi network will turn off. Press any button to turn the Wi-Fi network back on.

## Using the web interface at vodafonemobile.wifi

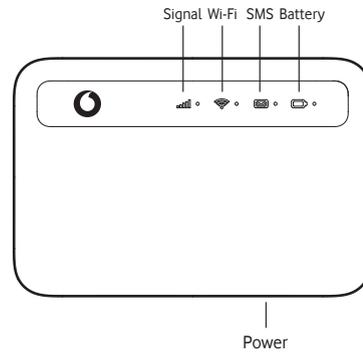

You can find the web interface on **vodafonemobile.wifi** if it doesn't appear automatically when you connect. Then login using the default password which can be found on the reminder card or on the label inside the device.

Then you can see your network and Wi-Fi status, how much data you have used, get help and support, and even send and receive SMS messages from your computer.

This device is dual-band and uses two frequencies (2.4GHz & 5GHz) for better performance. You can change the frequency band in Settings / Quick Setup.

## Buttons and LED

## The buttons

**Power button**  
Press and hold for 3 seconds to power on or off your device.

Press and hold for 10 seconds to reboot your device.
